Student Highlight: Natalia is an outgoing and positive student who loves sports, languages and learning about new cultures. With eight years of synchronized swimming and a passion for travel, she is excited to share Italian traditions with her host family.

Dear future host family, I'm very excited about writing this letter because it means that my new adventure is about to begin! My name is Natalia, I'm a 15-year-old girl from a city in southern Italy, right on the Adriatic coast. I'm currently attending a Scientific High School, and I really enjoy studying—especially science and physics, which are two of my favorite subjects. I would describe myself as a cheerful, positive, solar and outgoing person—I love meeting new people and discovering different lifestyles and cultures. I'm also very spontaneous and ambitious, and I always look for new opportunities to grow and learn. One of the things I'm most passionate about is learning new languages, because I believe that being able to communicate with people from different backgrounds is a beautiful way to connect and grow. That's another reason why I'm really excited about this experience! Another passion of mine is music—I love listening to it and discovering new artists but I especially listen to English, Spanish and Italian music. I come from a family of four: my mom, my dad, my 12-year-old sister, and me. I get along really well with my sister, and we often do a lot of activities together. When I'm at home I like to spend time with my mother and talk to her while making desserts. During this activity we feel very close and one of our specialties is tiramisu. With my father I usually go for walks or do sports. My mother is Slovak, so I've grown up bilingual, speaking both Italian and Slovak. As a family, we travel a lot, even to faraway destinations. My most recent trip was to the United States, and I absolutely loved it! That's why I'm even more excited to return and discover new places in the U.S. during my exchange. I can't wait to explore more of the country and live it from a different, more authentic perspective. For 8 years, I practiced synchronized swimming, a sport I truly loved for team spirit and because it combines 3 disciplines: swimming, dance and gym. During the last year I also started going to the gym with my mother and I like it a lot. During the summer, I usually spend time with my family and friends at a seaside village which is located in a very touristic area in fact fun events are very often organized and I love being outside, enjoying the sun and the sea. In winter, I go skiing, something I've been doing since I was little and truly enjoy the fresh air and the mountain landscape, I'm a bit nervous about leaving home, but I'm also really looking forward to this experience. I hope it will help me grow, improve my English, and discover new sides of myself. I can't wait to study new subjects and practice sports other than usual. I'm truly grateful for this opportunity and for your hospitality—I would love to bring a little piece of Italy into your home and share my culture with you. Thank you so much, and I can't wait to meet you! With love, Natalia **Following qualifications as a host family you may request the student's personal video.**

Dear future host family, I really want to participate in the American exchange program because I want to learn how to express creativity and originality so that one day I can become a Disney creator who provides dreams for people all over the world. My hobbies are drawing pictures and singing songs. I especially enjoy drawing characters like Mickey Mouse, and I have loved drawing since I was very young. They taught me that learning about other cultures can make your life richer. Their stories encouraged me to join the American exchange program. When I was 15 years old, I participated in a short exchange program in China for two weeks. That experience made me even more excited about meeting people from different cultures. At school, I serve as a class president and enjoy working with my classmates and organizing activities. My friends often describe me as cheerful and active. In addition to my music club, I also participate in the Kyudo club, which is Japanese archery. My mother is very reliable and supportive, and my father is funny and active. My younger sister is 12 years old and loves dancing. We also have a small dog who is very cute and loves to eat. I love spending time with my family because they are kind and fun. In the future, I want to become a creator who can make many people smile. Walt Disney once said, "If you can dream it, you can do it." I believe that participating in this American exchange program will be the first step toward achieving my dream. I hope to share Japanese culture, food, and traditions with my host family, and I am excited to learn about American life and culture as well.
